Dear Parents and Carers

It has come to our notice that many of our children are mimicking the violent scenes from the new show 'Squid Game' which is showing on Netflix. The show has a 15-age rating, with violent and gruesome scenes in every episode.

I would urge all parents not to let their children watch the Netflix horror series Squid Game and to also be aware that even if your child is not accessing Netflix, there are gruesome scenes being shown on You Tube and on Tik Tok. As a school we will be educating and talking to the children about what is safe to watch and why age restrictions are placed on programmes in order to safeguard them from content which is not appropriate for their age group.

Kind regards

F Quayum

Headteacher
